File: Destructor Sys, [redacted]

7 October 1958

MEMORANDUM FOR THE RECORD

SUBJECT: [redacted] Destructor System

25X1

1. On 3 October 1958, the undersigned discussed the problems involved in installing the destructor system on [redacted] Operations Support Staff/AIRD/PRB.

25X1

2. A decision was made to have a permanent installation which will become a part of the airplane. [redacted] will make the initial installation under our supervision and with the materials we supply. From this work a field modification kit will be made for overseas aircraft.

25X1

3. The four airplanes in the field are regularly flown [redacted] for 90 day inspection and repair tours. At any time one plane is usually there and would be available for the first installation. When the complete system is ready, the undersigned will contact [redacted] and arrange for a visit to [redacted] to begin the installation.
